Member Application for the World University Consortium

I,
(full name of authorized officer filing the application) as the legal representative of

(full name of the applicant institution) request admission as a voting member of the World University Consortium (WUC).

We recognize that prevalent current models of higher education are insufficient to equip individuals and society with the effective tools needed to address personal and social challenges. There is an urgent need to evolve, test and widely disseminate new models better suited to develop the full potential of each human being for individual accomplishment, constructive contribution to social development and global citizenship. We recognize the need to facilitate collaboration among all stakeholders in order to create and provide effective learning processes that will help people to acquire effective tools for diagnosis, management and resolution of the problems facing humanity today.

We fully share and are committed to actualizing all our practices at the applicant institution the ten principles of the United Nations Academic Impact Initiative which are the basis of WUC values, namely:

1. A commitment to the principles inherent in the United Nations Charter as values that education seeks to promote and help fulfil;
2. A commitment to human rights, among them freedom of inquiry, opinion, and speech;
3. A commitment to educational opportunity for all people regardless of gender, race, religion or ethnicity;
4. A commitment to the opportunity for every interested individual to acquire the skills and knowledge necessary for the pursuit of higher education;
5. A commitment to building capacity in higher education systems across the world;
6. A commitment to encouraging global citizenship through education;
7. A commitment to advancing peace and conflict resolution through education;
8. A commitment to addressing issues of poverty through education;
9. A commitment to promoting sustainability through education;

10. A commitment to promoting inter-cultural dialogue and understanding, and the “unlearning” of intolerance, through education.

We support and will actively participate in WUC’s initiative to create a worldwide action research project involving all interested stakeholders in a process to assess the emerging educational needs of individuals, occupational groups, communities and society-at-large (for knowledge, behavior and way of being) in order to effectively cope with the demands and successfully avail of the opportunities presented by rapid social change.

In joining the WUC I also declare that the institution I represent will regularly pay the annual WUC memberships dues (presently established at one thousand euros per year) which are required by the Consortium to fulfill its mission. I am also aware that the amount of membership dues may be modified in future by the WUC Board of Directors, and that timely payment of dues is a requirement for continued membership in the Consortium.

I have carefully read the WUC mission and bylaws and after thoughtful deliberation with my colleagues declare our willingness to adhere to the values and mission on which the Consortium is founded. We understand that any member of WUC which acts in any manner contrary to the mission and values of WUC will be automatically excluded from membership in WUC. Having carefully read this document and fully cognizant of the contents I as the legal representative of (name of institution), sign this document.
